

GSE GEOMETRY RECOVERY FORM

Recovery Policy Guidelines

- 1) The student is eligible to take a recovery test if his/her overall grade is 74% or below.
- 2) **The student must ask to take the recovery test and submit this Recovery Form within five days of receiving the original test grade and the grade being posted on HAC.**
- 3) If the student is missing any work, he/she must make up the missing assignments before taking the recovery test, **including the test review.**
- 4) The student must make all corrections to the original test on a separate paper, showing all work, and explaining (in words) the correct method of solving the problem, including multiple choice problems.
- 5) This form, test review, and test corrections must be submitted **prior to** taking the recovery test.
- 6) The student must attend the prescribed help sessions, **agreed upon by the teacher and student**, prior to taking the recovery test.
- 7) The original test grade will be replaced with the recovery test grade. However, the new grade cannot exceed 74%. For example, if student earns 70% on the original test and 90% on the recovery, although the recovery grade is 90%, the replacement test grade will be 74%.
- 8) The recovery test must be taken by the deadline determined by the teacher as noted below.
- 9) No quiz or project recovery is allowed.

Help Session Date: _____

Recovery Test Date: _____

COMPLETE ALL SECTIONS BELOW

Last Name: _____

First: _____

Date: _____
